Load from file

Use Matlab-
code (ListBox)

Spike train
generator

**Modify
data:**

- Select time window
- Select time markers
- Select spike trains
- Define spike train groups
- Define spike train separators

**Select
subplots
(measures):**

- Stimulus
- Spikes
- Piecewise constant measures
- Sampled measures

**Select
time cuts:**

- Frames
- Selective averages
- Triggered averages

Calculation

**Select
plots:**

- Select plot / movie
- Select time markers
- Select spike trains
- Set additional parameters

Plot

**Modify
plot:**

- Run, stop movie
- Set additional parameters
